

## Gender and REDD+

- Possible interventions as indicated through UN-REDD/LEAF/WOCAN study

# Good Practices

- *Ensuring women's representation and participation in natural resource management sectors*
- *Supportive facilitation for women's participation*
- *Skills Building*
- *Gender-disaggregated Analysis and Planning to Meet Women's Livelihood Needs*
- *Labor-saving & time-reducing technologies*
- *Diverse types of women-only groups*
- *Women in networks and federations*
- *Presence of women leaders and male and female gender champions*
- *Enterprise development and credit provision*

# Barriers at the **institutional/policy level**

- 1) Cultural norms;
- 2) Lack of recognition of women as stakeholders;
- 3) Lack of women's representation;
- 4) Lack of financial commitments
- 5) Lack of gender disaggregated data

## Barriers at the **community level** were:

- 1) Too few women leaders;
- 2) Lack of income generating opportunities;
- 3) Lack of women's representation; and
- 4) Cultural norms

# Good practices to address barriers

*Financial commitments (I/P)*

*Women's leadership and gender champions (I/P & L)*

*Women's networks and federations (I/P & L)*

*Provide support for skills building for women(L)*

*Ensuring women's participation (L)*

## Possible Interventions

- FCPF allocates funds (under 1.3) committed to promote women's engagement
- TF establishes "Gender Champions" advisory committee
- CBR National Strategy prioritizes establishment of women's networks
- CBR National Strategy prioritizes projects that include women's skill building activities

# Thank You
